FAQ

What is the "Kingdom of Pennylvnd"? How come I don't see it on a map?

The Kingdom of Pennylvnd is a small, industrious micronation situated entirely in the American state of Michigan. Pennylvnd is the result of a number of years of progress, going from a small child's game to, well, a slightly more serious venture. Though not well known, we hope to gain our rightful place in the world stage.

What is a "Micronation"?

Dictionary.com defines a micronation as:

"[...] entities that resemble independent nations or states but which are unrecognized by world governments or major international organisations [...] Micronations differ from secession and self-determination movements in that they are largely viewed as being eccentric and ephemeral in nature, and are often created and maintained by a single person or family group."

This is a very good description of what we are about: peaceful self-determination.
