

EMPIRE OF SHITLANDIA

B R I E F I N F O R M A T I O N

FOUNDATION

The Empire of Shitlandia is the imaginary power of land Shitlandia and its adjoining colonies. The EoS has no delimited area, so its greatness is not limited. Everyone, who want became a citizen of the EoS, will obtain a passport, which he must bring everywhere and forever.

So he helps to spread out the empire and in a place he live a new embassy is established (where he is a fogleman).

Each citizen has to scricltly follow the laws of the Empire of Shitlandia...

THE DIGEST of LAWS of Empire of Shitlandia:

- § 1 By the citizen of the Empire of Shitlandia is called each owner of the valid passport of the Empire of Shitlandia (which he must bring everywhere and everywhen).
- § 2 Each citizen is obliged to follow these laws, he must be faithful to EoS and do his best in his function.
- § 3 Otherwise, everyone can do what he wants.

The SIGN of the EoS is the farce to the british royal heraldry. Because of the human's rights in the EoS are very free (in paradox nearly anarchistic), the symbols in the sign mean the derision and protest, there are all forbidden and widely despited matters. You can see, how much is the EoS serious :)

Shitlanda itself isn't an empire. The empire is created by its inhabitants. Its extent (rather coverage) can change according to citizen's staying, so Shitlandia is in the imaginary center of the whole empire.

Since, the Empire of Shitlandia is based only on absurdity (what?!), the foundation must be the simplest.

Material base are: the passport, internet pages and few documents or letters. Next evolution depends on citizen's creativity and fantasy, as well as its spreading and becoming known. We want to develop external dealing with foreign, likewise independent states. Even thought the EoS is rather peaceful country, we can't foreclose military operations (declaration of war) against some other states and kingdoms. (In this fact, the EoS is incoquerable, it has no army which could be beaten, and no land which could be occupied. It would be all only provocation.)

THE CONSTITUTION (additions)

The EoS citizenship can get everyone, who obtain EoS passport and voluntary accept EoS laws. Every new citizen has the right of choice of his new rank or grade, which is still disengaged.

Even thought, the EoS is called "empire", it has no leader, a president or a king ; and no one can throne himself or someone to one of these functions. Just as in EoS is no hierarchy, no one have upper position than others.

Functional matters are in care of the Top Administrator of the Empire of Shitlandia, who (as the only one) has power to cancel some citizenships or mandates. All official documents must be market by the seal or stamp of EoS.

Empire of Shitlandia hasn't have any real territory, no land can be occupate in name of EoS, no man or animal can be hurt in name of EoS.

THE PASSPORT

The passport is the only one warrant of identity of EoS. It is valid in all countries of the world and non-world.

When you as a new owner obtain it, you must truly fill in name or nickname and your civil station in EoS, which you can dream up (if its not engaged - vide "Embassies"); and a date of filling your passport, so from when a passport is valid.

The same data you must report to authorities of EoS before (in on-line registration form), so you can be called rightful inhabitant of Empire of Shitlandia!

Then you must place your photo: draw it, or stick it (perhaps deformed photo) and draw a stamp over the photo.

An inhabitant must bring his passport for ever. To some other inhabitant's or EoS officer's ask he must be able to present it. (If he isn't able (for alcoholic circumstances, for example) he have to be escorted by second person, who IS able. (If the second person isn't able too, there must be some other people, their number depend on how much are all people drunk out.

INSTRUCTIONS:

Fill truly the registration on-line formular on EoS web.

Download both sides of passport, open them in some graphic programm. First side place at the middle of page. Print it in full-colour to white hard paper and the second side print exactly to opposite part of paper.

Fill in choicely according to instructions from previous page.

Place it to your papers

VIVAT SHITLANDIA!

NOTICE:

There are many small independent states at the world. As like as Shitlandia, some of them are created as a joke, and their purpose is for amuse. At some states you can be surprised, how much they are sophisticated and how resolutely their leaders manage them. There are also states owning some real domain. They has been created by occupation of some land, island or uninhabited oil-deck e.g. However they are / aren't honour by surrounding states, their dominators thinks really about their statemanship somewhen. It can lead to real conflict (in such one example, the british royal marines had to intervene to the gunplay between two small forces.) Nevertheless Shitlandia is only imaginary state, it's bases are in proud citizen's consciousness...
